

RE : ALGAE BIOFUELS IN EUROPE and WORLDWIDE: WHO'S WHO and SURVEY QUESTIONNAIRE

Dear Algae Stakeholder,

Please find herewith a questionnaire which is sent to you as an action of the European Project **AquaFUELS**, funded by the EC Commission under the VII Framework Programme for research.

The European Biodiesel Board (**EBB**), as coordinator of AquaFUELS as well as the European Algae Biomass Association (**EABA**) - also supported by the project - look forward to your important contribution in order to establish the status quo of development of algae biomass and algae based biofuels at international level.

The aim of this questionnaire is to create a **Who's Who Directory and Survey on algae stakeholders** at European and international level. This Directory will provide accurate and up-to-date information about the status quo of public and private initiatives in the field of algae biomass and their actual level of development. It will include EU and global industrial and academic initiatives (in separate sections), as well as individuals and companies with activities and/or simple interest in this field (i.e. commercial airlines, engineering companies, etc.).

Once completed, this survey will be an extremely useful tool for all algae stakeholders worldwide. It will only take you a few minutes to fill out the questionnaire attached to this email, but this will provide you with the **opportunity to be included in the *Global Who's Who Directory and Survey*, that will be elaborated via your answers** for the benefit of the entire algae biomass sector.

In an effort to try to use in intelligent way your time the questionnaire was subdivided in two parts:

1. **PART 1 (only one page)**: with basic questions (5 min. for answering)
2. **PART 2**: with more detailed questions

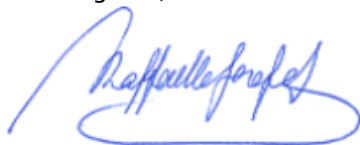

*You can fill only part one and fill part 2 later, you can give also partial answer, except for mandatory zones (**)*

Please fill the questionnaire whether you are actively and directly implicated in the algae biomass sector or whether you just have an interest in keeping up-to-date with the latest developments in this area.

Thanks also to attach your company/legal entity's logo to your response. Sending jpeg images of your sites and labs is also welcome. Thanks also for filling the questionnaire electronically, preferably in Word format, and replacing the dots with your answers (*insert* function). Your reply should be sent back to us at the address eaba@eaba-association.eu, possibly **no later than Monday May 10th, 2010.** **PLEASE FEEL FREE TO FORWARD THE QUESTIONNAIRE TO YOUR CONTACTS** and do not hesitate to send us complementary information should you consider it to be necessary.

We thank you in advance for your availability.

Kind Regards,

Raffaello Garofalo
AquaFUELS Co-ordinator
